Michelle,

Deb's presentation (film) would take over 54 minutes, if that's doable for the next Extended ET meeting. I believe the documentary is on potential impacts and tribal concerns with mining, Pebble in particular.

Hey Deb,

How much time would the showing of the film take?

RE: Red Gold Film

Jim,

I am available to come down for the Ex. Team meeting on the 3rd or 10th for a viewing of the film. Let me know which works best for you both.

Elin,

Still waiting to see if you would like me to come down and do a private viewing of the film for your executive team. The producers just opened up a new film website and I thought I would share it with you, and it gives you an opportunity to view the trailer. Again, no pressure or advocacy intentions here. But rather, a chance for the viewer's to see how the stakeholder's are coming together to address common environmental issues. Thanks Elin..talk with you soon.

Debra
